We're here to help our rural communities to strengthen community life. Here's how we do it:

Community Groups:

We provide support and guidance to existing groups, enabling organisational development and capacity building. We support groups that are just starting out with governance, legal structures, business planning and much more.

Community Planning:

We advise and support Parish Councils and local volunteer residents through the community led planning process.

We Support Neighbourhood Plan groups throughout the process through to completion. We are the leading organisations in the region for Neighbourhood Plan support.

Funding:

We offer support to voluntary and community groups, including community building committees, to search for relevant funding, complete applications and develop a fundraising strategy.

Community Buildings:

We advise and support village hall and community building committees on governance, energy efficiency, legalities, maintenance and funding. We also manage the Cheshire Community Buildings Network.
