to me

Dear Gill,

I am writing in relation to the recent formal consultation in relation to the proposed parking restrictions (prohibition of waiting order) on High Street, Great Budworth. The consultation responses have been scrutinised and given the number of objections raised in relation to the proposal and the aesthetic impact on this historic village the decision has been taken by senior management not to progress the scheme any further.

I would like to take the opportunity to thank everyone for their consultation feedback and recognise that the decision made may disappoint some parties but the High Street proposal has now been subject to the formal consultation process and the decision taken is reflective of the local feedback we have received.

Kind regards,

Toby Singleton
